

Majid Ebrahim-Zadeh is an Institucio Catalana de Recerca i Estudis Avancats (ICREA) Professor at the Institute of Photonic Sciences (ICFO) in Barcelona, Spain. His research in experimental nonlinear optics extends over 20 years and he has contributed to the advancement of optical parametric sources from the UV to mid-IR and from the continuous-wave to ultrafast femtosecond time-scales.

Professor Ebrahim-Zadeh has published over 250 technical papers in international journals and conferences, including 41 invited papers and tutorials and 9 post-deadline papers at major international conferences including *CLEO/USA* and *CLEO/Europe*. He has co-edited 2 books, including *Mid-Infrared Coherent Sources and Applications* (2008) and has authored and co-authored 10 major book chapters and invited reviews in volumes such as *Science* (1999), *OSA Handbook of Optics* (2000, 2009), *Solid-State Mid-Infrared Laser Sources* (2003), *Handbook of Laser Technology and Applications* (2003), and *Phil. Trans. Roy. Soc. London A* (2003). He has been an instructor of the short course on *Optical Parametric Oscillators* at *CLEO/USA* since 1997 and at *CLEO/Europe* since 2007.

Professor Ebrahim-Zadeh has served as the sub-committee chair of *CLEO/USA* (2000, 2001), member of technical program committee of *CLEO/USA* (1998, 1999, 2007, 2008), *CLEO/Europe* (2000, 2003), *SPIE/Photonics West* (2000, 2001, 2002, 2008), and *Nonlinear Guided Waves Conference* (2005). He was the director of the NATO Advanced Research Workshop on *Mid-Infrared Coherent Sources* in 2005. He has been an advisory editor of *Optics Letters* (1998-2003), guest editor of *J. Opt. Soc. Am. B* (1998) and topical editor of *Optics Letters* since 2003. He serves on the Joint Council on Quantum Electronics (USA), International Council on Quantum Electronics, the Steering Committee of *CLEO/IQEC* (USA), the advisory board of International Conferences on Materials and Technologies, and as associate editor of *Advances in Nonlinear Optics*. His awards include Royal Society of London University Research Fellowship (1993-2001), Royal Society of London Merit Awards (1995, 1999), and Innova Prize for innovation and enterprise (2004). He is a Fellow of the Optical Society of America.
